Dear Mr. COFFEE :

In response to your inquiry about an estimated pension benefit, we have provided the following information for your review, which was used in the calculation of the estimates provided:

Participant Data :

JAMES K COFFEE

Birth Date : August 12, 1960
Current Age : 57 Years 5 Months
Effective Age : 65 Years 0 Months

Spouse Data :

Peggy Coffee

Birth Date : October 24, 1959
Current Age : 58 Years 3 Months
Effective Age : 65 Years 10 Months

Assumptions :

Effective Date of Pension : September 01, 2025
Pension Credits Earned Thru 2025 : 25

The enclosed estimated benefit amounts shown are based on the information shown above without Plan verification. Actual benefit amounts may vary significantly from the estimates as shown in the following page. In as much as these assumptions change annually, future estimates and actual amounts may vary. Additionally, estimated monthly amounts payable in conjunction with a Partial Lump Sum may vary due to changes in the annual actuarial tables.

All forms of payment offered by the Plan are of approximately equal relative value. The relative value comparison is made by converting the value of the optional forms of benefit presently available into a common form, the Five-Year Certain Option. The conversion uses interest rate and life expectancy assumptions. All comparisons are based on average life expectancies. The relative value of payments ultimately made under an optional form of payment will depend on actual longevity.

If you have any questions, contact the Plan Pension Department.

Sincerely,

Karen Munson
